ASSEMBLY INSTRUCTIONS

Note: All angles and channels are to face out. Use exploded view as an assembly guide.

1. Assemble Bases and Link Strap to Side Posts using 212675 Bolts, 225254 Lockwashers and 203348 Nuts.

2. Assemble Cross Members to side posts using 227298 Bolts, 201110 Lockwashers and 203352 Nuts.

NOTE: The cross member with logo, name plate and caution label determines front of press.

3. Place Head Assembly in position from under cross members (position jack mounting holes in jack platform to rear of press). Fasten with 212675 Bolts, 225469 Beveled Washers, 225254 Lockwashers, and 203348 Nuts as shown in Detail "A". Do not tighten nuts.

4. Place Top Plate in position on top of cross members. Fasten with 212675 Bolts, 225469 Beveled Washers, 225254 Lockwashers and 203348 Nuts as shown in Detail "A". Tighten head assembly after tightening top plate.

5. Assemble one Bed Channel to each side of side posts with 227302 Spacers between them. Use 227301 Bolts (pass thru bed channels and spacers), 209964 Lockwashers and 203275 Nuts to complete this assembly.

6. When tightened, the bed should be readily adjustable along side posts without binding. In use it is supported in the desired position by 227303 Pins passing thru the appropriate holes in the side posts.

7. The 227332 Stud is affixed to a collar on the bottom of the head assembly by a 205374 Set Screw.

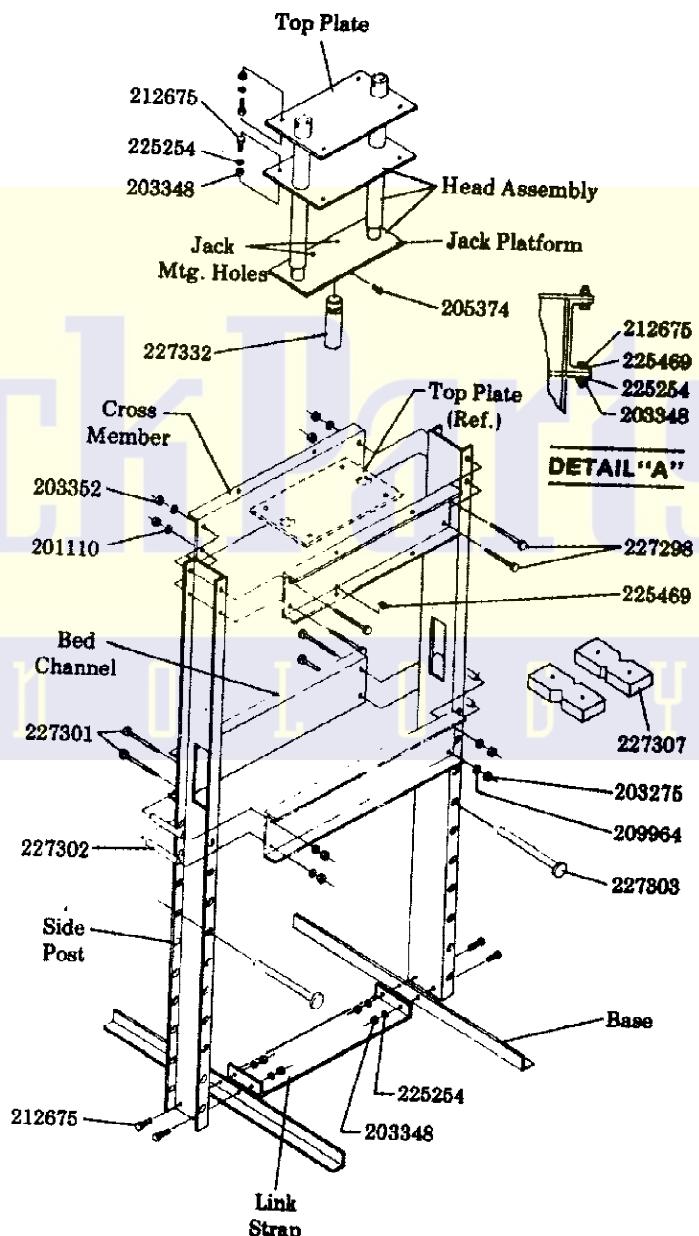

8. Place the shop press jack on the Jack Platform, lining up the drilled holes in the base of the jack with the holes in the jack platform. Secure jack with bolts and nuts included in jack carton.

NOTE: Read instruction manual enclosed with jack before use.

212675 Bolt — 1/2 - 13 x 1-1/2"

227298 Bolt — 5/8 - 11 x 6-1/2"

227301 Bolt — 3/8 - 24 x 6-1/2"
