NOTE: The information described in this Technical Service Bulletin (TSB) is intended for use by trained, professional technicians with the knowledge, tools, and equipment to do the job properly and safely. Do not attempt to service equipment if you have never been trained on similar installation and/or service procedures as described herein. Do not assume that a condition described affects your equipment model. Always contact the factory to determine whether the TSB applies. Warranty documentation and/or original purchase information must be made available to factory service representatives to help determine equipment configurations. The information in this TSB was current at the time of printing. BendPak Inc. reserves the right to supersede this information with updates. The most recent information is available through BendPak's on-line technical resources.
