TROUBLESHOOTING

Troubleshooting Points for the CTBMM600 Series:

Problem: Drawers appear not to fit, do not slide in accurately and bump the cart sides.

Solution: The roller bearing slides must be fully engaged into the mounting slots on all drawers. They potentially could fall out of position during shipment. Check the side of the cart to determine which slide is out of position.

Remove the drawer that is out of position. The drawer is removed by the two clips on the actual roller bearing slide.

Simply push the roller bearing slide back down into position.

Insert the drawer back onto the roller bearing slides.

Problem: Back Lock/Unlock Switch does not engage the drawer.

Solution: The inside Lock/Unlock slide potentially could fall out of its groove during shipment. Unscrew the four screws that are holding the Lock/Unlock slide in place.

Once the screws are removed, simply place the latch back onto the slide and tighten the four screws back down.

⚠ WARNING

Cart Load Limit 700 LBS

Top 4 Drawer Load Limit 75 LBS

Bottom 2 Drawer Load Limit 150 LBS

- Read and follow all instructions in User's Manual
- Do not load carts beyond rated capacity
- Lock lid and drawers before moving
- Apply brake on locking casters anytime cart is in place
- Units can tip or fall causing damage or personal injury
- Do not open more than one loaded drawer at a time
- Do not stand on or step in drawers
- Keep children away from unit
- Wear gloves when lifting edges
- This product may contain one or more chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. *Wash hands thoroughly after handling.*
- Failure to heed these warnings may result in personal injury and/or property damage
