

# TRANSMISSION JACK MODEL CT-1000

## 1/2 TON CAPACITY UNDER HOIST AIR/ HYDRAULIC TRUCK TRANSMISSION JACK

### INTENDED USE:

Designed for the removal, installation and transportation (in the lowered position) of transmissions and transfer cases on passenger cars, vans and light trucks that are raised by an in-ground or above-ground lift.

**Capacity:** 1/2 Ton @ 100 PSI

**Lift Range:** 35" to 72"

**Base Size:** 34" x 37"

**Saddle Tilt:** Fwd 42 degrees, back 46 degrees, side +/- 12 degrees

### FEATURES:

- Air/hydraulic foot pump provides hands free operation and easy convenient lifting
- Metered pump valve provides safe lowering of load
- Safety overload system prevents jack from being used beyond its rated capacity
- Fully adjustable universal saddle with adjustable arms to position the transmission
- Heavy duty chain with convenient chain tensioner secures load to saddle
- Polyurethane wheels provide protection for tile and epoxy floors
- 2" diameter, chromed, single stage ram provides added stability throughout the entire lift range
- Wide base with four 4" diameter heavy swivel ball bearing caster wheels provides stability and easy maneuvering
